Stephen E. Dell is a Managing Director at IPFC Corp., an independent consulting firm that provides financial consulting services, financial analysis and valuation assessments for companies relating to intellectual property (such as patents) and financial analysis and valuation services for corporate disputes, licensing negotiations, litigation and corporate finance purposes.

Financial and Litigation Consulting Experience:

More than seventeen years of professional experience in financial consulting and valuation services. The focus of Mr. Dell's experience has been in assisting clients with complex intellectual property damage analysis, commercial disputes, and valuations. Mr. Dell has provided damages analysis, valuation, licensing negotiation, and financial consulting services to attorneys and corporate clients in more than 100 major litigation matters.

Experience in litigation and financial consulting involving:

- Valuations
- Sales determination and projection
- Licensing and royalty determinations
- Licensing negotiations
- Lost profit analysis
- Fixed and variable cost analysis
- Incremental profit analysis
- Financial statement analysis
- Product line profitability analysis
- Allocation of costs
- Manufacturing and marketing capacity
- Market assessments
- Business interruption losses
- Alter ego opinions
- Expert reports

Mr. Dell has significant involvement with company and law firm personnel in the identification of relevant market, financial and economic information, the development of damage analysis and related case strategy alternatives for use in the development of expert reports for negotiations, arbitrations and trial proceedings, along with corresponding analyses and conclusions for litigation matters and other financial consulting engagements.

In addition to the litigation engagements in which Mr. Dell has been involved, he has also assisted corporate clients in the valuation and analysis of their intellectual property portfolios. Mr. Dell's experience in this area has included market assessments, royalty rate assessments, as well as valuation and financial analyses that have been used to determine monetization strategies best suited for his clients. In addition, Mr. Dell has assisted his clients in the negotiation of patent license agreements related to various technologies.

Outside of litigation Mr. Dell has been retained by privately held companies and private equity firms to provide opinions of value regarding patent assets, as well as patent monetization strategies, including royalty rate assessments and patent licensing programs. Further, he has provided expert opinions and analysis, in both litigation engagements as well as non-litigation consulting and advisory engagements, regarding the establishment of Fair Reasonable and Non-Discriminatory (FRAND) royalty rates related to telecommunications standards relevant to cellular handsets and consumer electronic devices.

Mr. Dell has also been engaged in matters involving general business and valuation issues, including breach of contract, business interruption claims, shareholder disputes, and valuations used for tax purposes. Mr. Dell also has extensive experience in the real estate industry and the valuation of real estate assets and is licensed in Texas by the Texas Real Estate Commission.

Sample Industry Experience:

- Automotive
- Airlines
- Banking
- Electronics
- Environmental
- Healthcare
- Internet / E-Commerce
- IT Hardware
- Medical Products
- Mobile / Telecommunications
- Oil & Gas
- Real Estate
- Consumer Products / Retail
- Semiconductors
- Software
